COMMERCIAL COLLECTION

LVP

Commercial Modern Flooring Solutions

Our commercial collection offers modern day solutions for commercial applications. LVP provides the natural look of wood in a hard surface flooring alternative. Both stylish and highly resistant to walk-through, it makes projects once impossible a reality.

Our commercial lines outperform the competition by offering value-added options such as **EZ-Clean technology**. Available in a distinct plank size, each features superior embossing and beveled edges for added realism and a polished finish.

A **100% waterproof** flooring solution, offering the perfect balance of performance and design, at a compelling value. Our commercial flooring products are the preferred choice of today's architects and commercial designers.

**100%
WATER-
PROOF**

Dimensions

With LVP flooring products, the limitations of natural wood planks are a thing of the past. Our commercial collection, available in a distinctive plank size, offer endless creative design. Planks can be arranged in a variety of unique pattern installations and mixed with other color options to create truly stunning one-of-a-kind floors.

7" x 48" High-Rise | Level Seven

Aesthetics

Flooring options dictate future elements such as furniture, wall coverings, and decorations. A flooring solution must not only be current with today's design trends, but also be forward thinking to the needs of the future. Our commercial products capture both in essence and design.

Reliable

The ever growing demands of commercial applications call for a floor that is not only visually appealing, but one that can perform for years to come. With its vinyl backing and commercial-grade wear layer, our commercial collection is certain to provide the support and resistance needed for every commercial project application.

Maintenance

Made of 100% waterproof materials, our commercial lines stand up to the rigorous elements introduced in commercial applications. EZ-Clean technology adds an extra layer of protection to our High-Rise line, making it even more resistant to stains.

High-Rise offers the perfect mix of aesthetics and practicality for commercial projects where quality design is a top priority. Featuring EZ-Clean Technology, premium embossing, and beveled edges.

Level Seven delivers commercial performance with excessive wear protection. Featuring a 20 mil wear layer, beveled edges, and modern selection of colors.

Why FloorScore?

When it comes to indoor air quality, a primary concern is the emission level of specific volatile organic compounds (VOCs). FloorScore® IAQ Certification means that a flooring product is independently certified by SCS Global Services to comply with the volatile organic compound emissions criteria of the California Section 01350 Program. Hundreds of resilient flooring materials and their adhesives bear the FloorScore® seal. This seal tells you that the products have been independently certified by SCS to comply with the volatile organic compound emissions criteria of the California Section 01350 standard. Any product that has met these stringent standards is a product that will contribute to good IAQ.

by  SCS certified.
